STORY BY: KAM TAMBINI

CLAE's **Five by Five series** is pairing up five DJs with five artists to create a collaborative audio/visual effort. Boogie-funk ambassador **Dam-Funk** cooked up this summer seasonal mix for the series' first installment, which he describes as "original wax pressings mixed live over a couple cocktails, in a dimly lit room, with a window view." Visual artist **Rostarr** provided the print for the cover art, which was also stamped on a tote bag and bandana. Download Dam-Funk's mix and peep the prints below.
